Contents of Volume 20

No. 1

Photographic Feature: The cliff face under the Clifton suspension bridge, Avon Gorge, Bristol 2

P. V. Grigg & K. M. Wong: Stabilization of boulders at a hillslope site in Hong Kong 5

A. N. Al-Khafaji: A simple approach to the estimation of soil compaction parameters 15

M. S. Rosenbaum: The use of stochastic models in the assessment of a geological database 31

A. B. Hawkins & G. M. Pinches: Cause and significance of heave at Llandough Hospital, Cardiff—a case history of ground floor heave due to gysum growth 41

D. M. McCann, P. D. Jackson & M. G. Culshaw: The use of geophysical surveying methods in the detection of natural cavities and mineshafts . . . 59

J. G. Raybould & D. J. Anderson: Migration of landfill gas and its control by grouting—a case history 75

R. B. Day, E. V. Tucker & L. A. Wood: Computer analysis of lithostratigraphic data derived from geotechnical records 85

A. L. Burwash & W. R. Weisner: *Discussion* on 'Mire morphology and the properties and behaviour of some British and foreign peats'. 97

A. J. Gerrard: *Discussion* on 'An observation of Moh's scale of hardness'; *reply* by G. West 99

Report of meeting by N. Evans: Road construction on soft and compressible soils 101

Report of meeting by S. M. Herbert: Data management in engineering geology . 103

Book reviews 105

Notices received 109

No. 2

Photographic Feature: Assessing ground conditions of small sites by aerial infrared photography 114

D. A. Spears: An investigation of metal enrichment in Triassic Sandstones and porewaters below an effluent spreading site, West Midlands, England . . . 117

P. S. Finn & P J. L. Eldred: Data management with microcomputers in geotechnical engineering practice 131

M. G. Culshaw & A. C. Waltham: Natural and artificial cavities in ground engineering hazards 139

F. C. Brassington & K. R. Rushton: A rising water table in central Liverpool . 151

D. T. Bergado & A. N. Selvanayagam: Pile foundation problems in Kuala Lumpur Limestone, Malaysia 159

C. Tomillo & A. Foyo: Relationships between the geological and selected geomechanical properties of the Purbeck–Weald Facies in Cantabria (North Spain) 177

G. West: Technical note: Shape of the failure envelope for a jointed rock specimen 183

C. R. C. Jones & S. Beeson: *Discussion* on 'Locating potential borehole sites in a discordant flow regime in the Chalk aquifer at Lulworth using integrated geophysical surveys'; *reply* by J. Houston, J. Eastwood & T. Cosgrove . . 187

Book review 189

Notices received 191

No. 3

Photographic Feature: Abandoned limestone mines in the west Midlands 193

J. Harris: The design and construction of a grade-separated interchange over soft alluvial and estuarine soils, A38 trunk road, Plymouth 199

J. F. Raper & D. E. Wainwright: The use of the geotechnical database 'Geoshare' for site investigation data management 221

B. J. Hardcastle: Wells ancient and modern—an historical review 231

P. L. Smart & A. C. Waltham: Technical note: Cave dams of the Guanyan System, Guangxi, China 239

M. S. Rosenbaum & B. A. Clarke: Technical note: The design of a high pressure and temperature oedometer 245

E. J. Wilson: Technical note: Pyritic shale heave in the Lower Lias at Barry, Glamorgan 251

N. R. G. Walton: *Discussion* on 'Electrical conductivity and saline concentrations in arid land groundwaters'; *reply* by J. C. Doornkamp & Hani A. M. Ibrahim 255

Book reviews 257

Notices received 259

No. 4

Photographic Feature: Castle Peak Power Station, Hong Kong 262

R. I. Acworth: The development of crystalline basement aquifers in a tropical environment 265

R. F. Stoner & W. Bakiewicz: Groundwater abstraction—construction, operation and maintenance: an international overview 273

M. J. D. DOBIE: Slope instability in a profile of weathered norite 279

J. O. ARUMALA & E. G. AKPOKODJE: Soil properties and pavement performance in the Niger Delta 287

J.-P. LATHAM & A. B. POOLE: The application of shape descriptor analysis to the study of aggregate wear 297

J.-P. LATHAM & A. B. POOLE: Technical note: Pilot study of an aggregate abrasion test for breakwater armourstone 311

Book reviews 317

Notices received 319
